RE: Planned Wastewater System Improvements
County of Johnston, North Carolina

Dear Chair of the North Carolina Joint Legislative Committee on Local Government:

The purpose of this letter is to notify you, pursuant to N.C. General Statute §120-157.2(a), that the County of Johnston, North Carolina (the "County") intends to finance wastewater improvements with estimated costs totaling approximately \$1,200,000 through a Clean Water State Revolving Fund loan. The Johnston County 2014 Sewer Rehabilitation Project (the "project") involves three wastewater interceptors in and around the Town of Smithfield, NC. The project proposes to install cured in place liners in 12,200 linear feet of 8-inch through 24-inch pipes, structural liners in 23 manholes, epoxy liners in 13 manholes, and several point repairs to pipelines and manholes. The State Water Infrastructure Authority has approved the project as eligible to receive a low-interest Clean Water State Revolving Fund loan of \$1,200,000.

The County plans to seek Local Government Commission ("LGC") approval of the \$1,200,000 Clean Water State Revolving Fund loan at an LGC meeting occurring on or after April 7, 2015. Please contact us if you have questions or need additional information regarding this project or the related financing.

Sincerely,

J. Chad McLamb, CPA

Assistant County Manager/Director of Finance
